**St. Helena Parish Tornadoes
1/1950 - 7/2009**

**St. Helena Parish Tornadoes
1/1950 - 7/2009**

**St. Helena Parish Tornadoes
1/1950 - 7/2009**

5/19/1983 – A severe thunderstorm spawned a tornado that initially touched down near the town of Urania. The tornado moved northeast for about 5 miles on a track that roughly paralleled HWY 125. It dissipated or lifted about 2 miles north of the town of Olla. Along its relatively short track, the F3 tornado caused an estimated \$25M in damage and was also responsible for 1 death and 30 injuries.

11/15/2006 – A severe thunderstorm associated with a pre-frontal squall line spawned a tornado touched down about 6 miles north northeast of Montpelier and moved northeast to the Tangipahoa Parish line west of Arcola. One fatality occurred near the initial touchdown when the tornado struck a small frame house and close-by travel trailer. Both the house and the travel trailer next to the house were destroyed with debris piled about 25 yards to the northeast. The tornado continued northeast with damage primarily to trees, power lines and house roofs.

Total number of tornado events: 11
